Dear Dr,

RE: Emanuele Manco, DOB: 12/07/1981, Hospital No. 2693115 (922757)
Address: 10 Niagara Close, Cheshunt, Waltham Cross, Hertfordshire EN8 9HA

Diagnosis: Left distal biceps reconstruction August 2023 in Barnet

Plan: Referral to PNI surgeon

It was a pleasure seeing Emanuele again in clinic. Essentially his neuropathic pain has not improved and if anything has worsened. He feels it most in his hand but his whole lateral cutaneous nerve is affected. The tinel is stationary approximately 2cm proximal to the end of the wound. The biceps tendon itself still seems in its correct position.

I think at this point a review by a PNI surgeon is warranted and so I will make the necessary arrangements.

Yours Sincerely,

A handwritten signature in black ink, appearing to read "Nick A. Aresti", with a long horizontal stroke extending to the right.

Practicing at:

The London Clinic, 5 Devonshire Place, W1G 6HL
London Bridge Hospital (HCA at the Shard), 27 Tooley Street, London SE1 2PR
